Mrs. Nancy Bonnell, wife of Robert Bonnell, Mappsburg Station, when about to retire Friday night last week, fell as she blew out the light and died in a few seconds thereafter, of heart disease. She was a kind hearted and estimable old lady, and was held in high regard in the community in which she lived.

A meeting of the directors, of the Mutual Benefit Fire Association, was held at Keller last Saturday. They report to us for publication the following: A good attendance of directors, everything in good shape, application for insurance coming in rapidly, policies aggregating over \$600,000 and only one small loss since organization, eight months ago.

The clerk of the court has forwarded by mail during the past week to each judge of election and registrar, a pamphlet copy of the election and registration laws of Virginia. The next is the first election for President and vice-President held under the Parker Election Law contained in said pamphlet. You have plenty of time gentlemen to be thoroughly posted as to your duties.

Strange colored men with grip in hand, we are advised, are now passing through our county daily and their mission, without doubt, is to stir up their brethren and to get them to register and cast their votes against you in November. Democrats are you content to be idle and remiss in your duty when they are thus secretly working for the destruction of your party?

"Hard Money" on the Issue.

EDITOR OF ENTERPRISE:—Hard Money has been asked some hard questions and he asks space in your valuable paper to answer some of them.

DIAGNOSIS AND PRESCRIPTIONS. All parties and all candidates are agreed that the country is in a deplorable condition. The financial distress is great and growing worse every day. Mr. McKinley in his letter of acceptance gives a graphic picture of our closed factories, our depleted trade, our impoverished farmers, our thousands of idle workmen seeking in vain for employment, and the alarming decrease in values that threatens general bankruptcy to the debtor class.

To remedy this distress the republican party led by Mr. McKinley proposes to increase the taxes and maintain the "existing gold standard" until foreign powers shall give us permission to restore the better American double standard and free coinage. The democratic party proposes to cure the distress of the country by at once restoring the double standard and the free coinage of both money metals—silver and gold at the present legal ratio, without waiting for or asking the consent of any foreign power. The democratic party led by Mr. Bryan says increase the money, improve business by coining money to do business with, and the distress will be relieved and the country will enter upon an era of prosperity.

The doctors are all agreed as to the alarming condition of their patient, but differ greatly as to the remedy. Republican doctors say do the country with more taxes and continue the "gold standard." Dr. Bryan and the democratic doctors say the patient is constitutionally all right but is perishing for lack of the nutriment of national and individual prosperity. Restore the double standard and diet on which the nation grew and become great, let the patient have all the money it wants and all will be well again.

Dr. McKinley says give the suffering country more taxes.

Dr. Bryan says give the country more money. Hard Money believes that the present distress is mostly the result of the foreign gold treatment that starves business by withholding money, and is thoroughly in favor of the American double standard and free coinage. But the voter must choose for himself and vote for McKinley and more taxes or for Bryan and more money as he is persuaded that the country needs more money or more taxes.

BY THEIR FRUITS.

Jesus said "by their fruits ye shall know them." Double standard with free coinage is not an experiment in America. This was the financial system of the country from the foundation of the republic until 1873. During that period we rose from a scattered and weak colonies to the foremost nation of the world. We set the example and other nations thought it wise to follow us.

Prior to 1873 England was the only great nation with the single gold standard, and we had not followed the "mother country" though England's adoption of the gold standard dates back 1818. But when in 1873 the United States demonetized silver and went to the gold standard, Germany and France followed in a year and the Latin Union embracing most of the nations of Europe followed us in a few years.

The years of our successful enterprise in war and in peace were when we had double standard with free and unlimited coinage of gold and silver.

The years of depression, of failing trade, and failing fortunes have come to us under the existing gold standard. Until the present year to this date shows the largest number of failures ever known in a like period in the United States. And we have the humiliating spectacle of a great political party, in our midst proposing to wait the consent of foreign powers before we take action toward remedying our financial distress.

The fruits of our American double standard, with free and unlimited coinage, were unbroken prosperity in peace and universal success in war. The fruits of our experiment with gold standard are:

1. It has sent the gold into retirement or into foreign countries, thus decreasing the money circulation \$900,000,000.
  2. It has debased the silver until the silver in a dollar is only worth a little more than 50 cents as compared with gold.
  3. It has added to the debt of the country \$302,000,000.
  4. It has destroyed at least one-fourth of the entire wealth of the country by depreciating values.
- These are but the first fruits of the gold standard? What will the full harvest be if continued. Let the voter who loves his country look at these facts. They are facts, stubborn facts.
- Will not utter ruin of the country follow republican success? Is not the election of Bryan the only hope of deliverance to the country?

Two Men Drowned Near Hog Island.

A bateau, having on board Edward Smith and Zachariah Pearsons, of Northampton, and Henry Sack, a pedler, was capsized on the way from Hog Island to the mainland on Friday of last week, and two of them, Smith and Sack, were drowned. Pearson was rescued by a passing boat, Edward Smith, one of the drowned men, was an industrious and very worthy young man and was married only about 4 months ago to a daughter of Mr. Robert Snyder formerly of this county. He was a good swimmer and could have reached the boat and been rescued, if he had not made an effort to save the pedler.

Entertainment at Sanford Rechabite Hall.

The entertainment given by Mr. Walter P. Gresham and wife, at Sanford Rechabite Hall, on last Saturday evening, was quite a success. This entertainment consisted of solos, duets, quartets, recitations, dialogues and comic recitals. The music on the occasion was charmingly rendered by Miss Florence Cutler. The solos, duets and quartets were sang by the Misses Cutler, Mrs. Gresham and Beatrice M. Sparrow. The recitations by Mrs. Gresham were superbly rendered. Joseph Taylor and Walter Gresham acted the negro and did it well—Gresham is an adept in the negro dialect, and his puns and witticisms are hard to surpass. This entertainment bears every mark of intelligence and culture, and will bear the criticism of the most fastidious.

To Tax Payers of St. George's Parish.

I do not wish to be compelled to take any other means of collecting the unpaid taxes for last year (1895), than by requesting those who have not paid me, to do so at once. I am compelled to have the taxes to meet the orders of the Board of Supervisors drawn on me, and I trust no other notice will be necessary to secure a settlement with those who are in arrears. "A word to the wise is sufficient." Don't delay and drive me to enforce collection. I must have the money. I will endeavor to attend all public gatherings for this purpose.

Your obedient servant, EDWIN T. POWELL, Treasurer of Accomac Co., Va.

It is surprising to many that foot ball players and other athletes regard a sprain or bruise of so little consequence. One reason of this is, they know how to treat such injuries so as to recover from them in a few days, while others would be laid up for two or three weeks, if not longer. Writing from Central State Normal School, Lock Haven, Pa., Mr. W. H. Losh, captain of the base ball club at graduation says: "I take pleasure in stating, that members of our base ball club and myself have used Chamberlain's Pain Balm with most excellent results.
